

# Factors

The factors of a number are the whole numbers that divide into it without a remainder.

Find the factors of 20

$$\underline{1} \times \underline{20} = 20$$

$$\underline{2} \times \underline{10} = 20$$

$$\underline{4} \times \underline{5} = 20$$

The factors of 20 are 1, 2, 4, 5, 10, 20
